Technical Projects

Global Terrorism Database Predictive Modeling (R)

May 2026

- Analyzed 200,000+ global terrorism incidents in R using Random Forest, Logistic Regression, and XGBoost to predict attack success through feature engineering and predictive analysis.

Investment Portfolio Simulation

November 2025

- Managed a simulated \$100,000 investment portfolio throughout a semester-long market simulation, evaluating investment strategies, portfolio performance, and risk-adjusted returns.

Professional Experience

Publix Supermarkets, Lakeland, FL

July 2023 – Present

Facilities Technical Specialist Intern

May 2026 – July 2026

Facilities Store Remodel & Project Reference Tool

- Developed an enterprise Power Apps solution integrating Dataverse, SharePoint, and Excel to centralize remodel and project data across hundreds of stores through dynamic search, filtering, and drill-down navigation.

Business Intelligence & Automated Reporting

- Designed Power Bi dashboards that automated executive reporting, visualized remodel pipeline performance and survey data, and transformed operational data into actionable insights.

Prototype Revision Workflow Automation

- Replaced a legacy Smartsheet process with a Power Apps, SharePoint, and Power Automate solution featuring automated approvals, role-based permissions, notifications, lifecycle management.
- Selected to demonstrate the completed workflow automation solution to the President of Publix during a departmental leadership visit.

Customer Service Staff

- Managed cash office reconciliation, transaction auditing, and secure fund handling while maintaining financial accuracy and operational compliance.
- Coordinated front-end operations and service desk activities in a high-volume retail environment, balancing workflow priorities while delivering exceptional customer service.

Previously held roles: Cashier & Produce Clerk

Leadership Skills

Civil Air Patrol, Cadet Commander

May 2023 - October 2023

Colonel George Boyd Award

- Led cadet operations, training, and logistics while making mission-critical decisions in high-pressure environments.
- Mentored cadets and coordinated training activities while fostering teamwork, accountability, and organizational effectiveness.
